

ACORNCORE . DECEMBER 1, 2017 PDA E T NO A AILABLE

ACORN CORE . DECEMBER 1, 2017 PDA E T NO A AILABLE

Be advised that as of December 1st 2017 all related Acorn course material will reflect the revisions outlined in this document. This includes all instructor resources as well as student course material generated by AcornCore after December 1st, 2017. Please carefully review the changes so that you are aware of any impact on your current and future courses.

Note: this update will not affect student course material already generated prior to December 1st, 2017.

Major aspects of this update include:

P - , . / L 1 (1A1, 1A2, 1A^X, 1B1) , ,

> Practical welding exercises: re-named 37 exercises to provide general description on each exercise (instead of #). Please refer to OLD vs NEW 1AX Exercises sheet for cross-reference. We have also added some new exercises: one for GTAW process, and 5 for the GMAW process. Each exercise contains at least one 3D interactive illustration (for use with AcornMobile) and a link to one or more instructional videos. Please note that exercise numbers have changed and some exercises now comprise multiple in-shou7 (w<11okexeMTEMC /Span51.5n-US)/MCID ✕er
